## Worship Band

Bonray

This four-piece group includes Zac, Jesse, Jake and Morgan Bonner. Yes, that's right - they're all related, in fact, they're siblings! Hailing from Pennsylvania, they grew up in the church where their dad serves as pastor. The siblings have been playing music and performing together for most of their lives, crediting their parents for always having music in the home. Since officially becoming Bonray in 2014, the group has been touring around the U.S. Their new single "Turn My Eyes" is gaining lots of publicity and they will have another single coming out in January 2018 just before hitting the Revolution stage. Bonray is not only a super talented band, they are lots of fun and their energy and passion for worship is sure to inspire all of us. When it comes to being siblings, here's what they have to say, "We're a family and we're a band, we work together and we do life together. Faith and music was such a big part of our family growing up...and this is what it's meant to be. We're all best friends and we work through everything together. It's awesome to be able to experience these things with people that you know will be with you for the rest of your life." Check out Bonray's Youtube channel to hear how great they are - and make plans to meet them in person at Revolution 2018!

## Water Mission

Did you know that 842,000 people die every day because of limited access to clean water? Did you know that in many places across the globe, children and young people walk hours just to retrieve water for their families? People are sick and dying and without water at this very moment and they need our help. Jesus said, "I was thirsty and you gave me something to drink." At Revolution 2018, we will have an opportunity to help meet the needs of people who are suffering from the global water crisis. The statistics may seem overwhelming, but having access to clean drinking water is something that is totally achievable for everyone in the world. At Revolution 2018, we are excited to partner with Water Mission, a South Carolina-based organization that is working tirelessly to bring an end to the global water crisis through education and water filtration systems. We will learn about their work, we will participate in a simulation experience, and we will have the opportunity to support them financially. As part of the Saturday free time schedule and in conjunction with the District Pizza Parties, your group will be able to experience the work of Water Mission in a hands on way. More information can be found at [scmyp.org/revolution](http://scmyp.org/revolution). As we gather in January to learn about Christ's "living water", may we also join together to support our thirsty brothers and sisters across the globe.

## Living Water

But those who drink of the water that I will give them will never be thirsty. The water that I will give will become in them a spring of water gushing up to eternal life.

John 4: 14
